CORPORATE PROFILE

BLM Technologies, Inc provides cost-effective IT solutions - Nationwide. We help customers maximize technology investments and reduce Total Cost of Ownership.

BLM is a single source of branch automation services to financial institutions. BLM provides complete solutions including hardware sales, service and installation; on-site and depot repair customized maintenance services; fulfillment services; asset disposal/recycling services; and IT staffing.

We are a complete technical solution provider authorized to sell and service products from leading manufacturers of banking hardware like Addmaster, Axiohm/TPG, Burroughs, Canon, Craden, CTS, Digital Check, Epson, Hewlett Packard, IBM, Ingenico, Ithaca, MagTek, NCR, Panini, Pertech, Olivetti, RDM, and many more.

We have a 30 year history of providing cost effective customized solutions services to our customer base. We have locations in fifteen states, and in conjunction with existing partnerships, provide services to our customers in all 50 states and Canada.

We live our commitment to deliver quality throughout the organization by practicing a Best-In-Class business culture. The Best-In-Class moniker enables BLM Technologies to listen, measure, evaluate, and make continuous improvements in all aspects of our business. It is what differentiates us from other integration companies. We share those measurement results with our partners for two reasons: (1) to assist them in making intelligent technology decisions, and (2) enable BLM to make adjustments as situations change.

BLM Technologies is rapidly becoming one of the country's leading providers of complete cost-effective branch automation solutions. We specialize in lowering the total cost of IT ownership thereby improving our customer's bottom line. As we implement our cost savings techniques, we also continue to improve the level of service performance expected from branch automation specialists. Best-In-Class is why we are recognized as business-technology partners for now and in the future.
